

M2M'S STORAGE TECHNOLOGY EVENT OF 2015

www.enterprise.m2m-direct.co.uk

t +44(0)20 8676 6067

Product Introduction Lunch and Learn

M2M have partnered with X-IO, Infinidat, HGST, Crossroads and Chelsio to invite you to an afternoon of innovative storage solutions.

Event Details

Date: 12 June 2015

Time: 12 Noon

Location

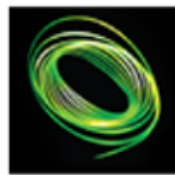

Vauxhall & Lambeth Suite
Park Plaza County Hall London
1 Addington Street
London SE1 7RY

Agenda

- 12 Noon** Meet and greet
- 12.30 pm** X-IO – The industry's most cost effective all flash array
- 1.00 pm** Infinidat – Storing the future on the next generation hybrid storage
- 1.30 pm** Lunch
- 2.00 pm** HGST – Ultra competitive PCIe & NVMe SSD solutions with enterprise class software
- 2.30 pm** Crossroads – The ultimate storage solution for unstructured data. Online, nearline and archive
- 3.00 pm** Break
- 3.15 pm** Chelsio – Ultra low latency 10/40GbE designed for all platforms.
- 3.45 pm** Networking

[X-IO Technologies](#) is a recognized innovator in the storage industry. Their Intelligent Storage Element (ISE) systems are based on two decades of invention and investment by veteran storage industry experts, and deliver unmatched price/performance, reliability and scale for enterprise and clouds. The “plug-and-perform” ISE storage arrays support a variety of configurations including the 800 series which has been demonstrated and proven by the Storage Performance Council to deliver the industry's most efficient price/performance figures.

[Infinidat](#) provides enterprise class hybrid storage at a disruptive price point. Through the use of its patented Infiniverse Storage Architecture™ (ISA), Infinidat employs commodity hardware to deliver highly efficient multi-petabyte capacity in a single rack. The InfiniBox™ solution also delivers mainframe-class reliability with an unprecedented 99.99999% availability, and over 750K IOPS of performance. Automated provisioning, management, and application integration provide a system that is incredibly efficient and easy to use. Infinidat is changing the paradigm of enterprise storage while reducing operation overhead, complexity and cost. Infinidat: Storing the Future.

Drawing on the heritage of invention that first introduced the hard disk drive, [HGST](#) (formerly Hitachi Global Storage Technologies) is a new type of storage company for a new world where ever-increasing amounts of content are being generated from cloud services, Internet content providers, social networks, mobile devices, Big Data and enterprise business transactions.

[Crossroads Systems Inc.](#) StrongBox solution is designed to meet the need of cost effectively storing long term data without sacrificing data availability, limiting scalability or adding complexity. Founded in 1996 and headquartered in Austin, TX, Crossroads has been awarded more than 100 patents and has been honoured with numerous industry awards for data archiving, storage and protection.

[Chelsio Communications](#) is a privately-held company headquartered in Sunnyvale, California with a design center located in Bangalore, India. Chelsio is the market and technology leader enabling the convergence of networking, storage and clustering traffic over 10Gb Ethernet.
